

Individuals and families that reside in the urban core continue to experience striking health disparities.

Our purpose is to connect hurting communities with knowledge and resources that can help them improve their condition.

Healing Our NEIGHBORHOODS

CCON Heals neighborhoods

by attacking issues like HIV/AIDS, violence, and COVID-19.

We recruit, equip and mobilize members of the faith community and other strategic partners to offer resources in zip codes need it the most.

Youth Development

The Helping Youth Plan for Excellence program (**HYPE**) helps to reduce violence by providing safe spaces and ongoing emotional support. Teens are encouraged to become part of the solution through media and the performing arts in the newly developed **HYPE Media Lab**.

Youth learn to create rich and meaningful content using video, audio engineering and production.

Food Insecurity

When COVID 19 surfaced CCON moved into action to rally over 80 community groups and hundreds of volunteers to provide nutritious meals to youth and families in need.

This work continues because the need is still great.

Health & Wellness

CCON partners with churches, medical and academic organizations to address health inequities faced by low-income and socially disadvantaged groups.

The Calvary Community Wellness Center provides structured fitness opportunities for those who do not have the financial means to access fitness centers/gyms in the area.

Vision & Mission

CCON envisions communities in which disparities are eliminated and the inherent dignity of all residents is recognized.

CCON improves the length and quality of life of urban core Kansas City residents through ongoing innovative education, empowerment, and partnerships.
